

Pacific Interior.

Curved Elegance & Modular Flexibility.

Pacific Interior's panels boast a modular curved design and complete interchangeability, ensuring the system is effortlessly updatable.

Available in wall-mounted, suspended, projecting, and free-standing formats, our range guarantees a perfect match for any wayfinding needs, providing unparalleled flexibility and convenience.

Curved & Elegant Design

Pacific Interior features a distinctive curved profile with a subtle 3 mm gap between panels, creating a visually light and sophisticated appearance.

The premium, injection-molded components ensure a refined, high-quality finish that enhances any space.

Effortless Updates

The panels are modular and fully interchangeable, streamlining updates effortlessly.

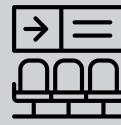

With options for wall-mounted, suspended, projecting, and free-standing formats, it offers the perfect solution for any wayfinding needs.

Precision Craftsmanship

Pacific Interior offers a wide selection of standard panel sizes and custom dimensions. For added visual impact, Pacific offers accent panels in five distinct designs or custom shapes, adding style and differentiation to create unique, standout signage for any project.

Mounted on robust, lightweight frames, each component meets ISO 9001 standards, ensuring both quality and durability to enhance functionality and aesthetic appeal.

- *Acrylic Paperflex Panels:* Allows easy and flexible updates.
- *Wall Rail in Black Anodized Extruded Aluminium:* Ensures a secure and stylish mounting solution.
- *Pacific Accent panels:* 3 mm thick etronit with free choice of colors.

Sustainability.

Modulex is committed to sustainability across all its product lines, integrating sustainable practices into the manufacturing and lifecycle of its signage solutions. Pacific interior signs are designed with sustainability in mind, utilizing materials that are both durable and updatable, reducing the need for frequent replacements and minimizing waste.

The ISO 14001 certified production processes are optimized to conserve energy and reduce emissions aligning with Modulex's goal of decreasing environmental impact while delivering high-quality products.

Warranty.

Modulex products are covered by a general 2-year product guarantee. The guarantee covers all product and function defects provided that the installation has taken place in accordance with the instructions from Modulex A/S.

ISO Certifications.

Modulex products are meticulously crafted in facilities that are ISO 9001 and ISO 14001 certified. This dual certification ensures that the products meet the highest standards of quality management while also adhering to stringent environmental management practices.

Benefits.

The Pacific Interior signage system offers several benefits that make it a versatile and appealing choice for a variety of environments:

Modular and Secure Design

The system's modular structure allows for easy customization and scalability to suit various spaces and requirements, while optional locking features for frame members provide enhanced protection against unauthorized removal in public and high-traffic areas.

Ease of Updates

Thanks to its interchangeable panels, updating information or changing the signage as needed is straightforward and cost-effective.

Diverse Installation Options

Pacific Interior can be adapted to multiple formats including wall-mounted, suspended, projecting, and free-standing installations, providing flexibility for different architectural and design needs.

Visual Impact

With its sleek, curved profile and minimalist design, Pacific Interior adds a refined touch to modern interiors. The addition of accent panels further enhances its aesthetic, creating visually engaging signage that elevates any space without overwhelming it.

Durability

Constructed with high-quality materials like painted aluminum and injection-molded plastic, the signs are built to last and withstand the demands of high-traffic areas.

Compliance with Standards

All components are manufactured to ISO 9001 standards, ensuring high quality and consistency across all products.
